

**Undertaking by guide for ICMR-STS concerning IEC approval**

This is to certify that Chinua Pailoor, doing his MBBS 5th semester, is undertaking an ICMR-STS project under my guidance, which has been titled.

“ Novel Echocardiographic Calcification Score as a Predictor of 30-Day Major Adverse Cardiovascular Events in Acute STEMI patients: A Prospective Observational Study ”

Since the time to get the Institute Ethics Committee (IEC) approval is short, I give an undertaking on my student’s behalf that IEC approval will be obtained immediately after the results of ICMR-STS 2025.
